SECTION I: BACKGROUND

Purpose/Intent

The Single Plan for Student Achievement (SPSA) is a plan of actions to raise the academic performance of all students. California Education Code sections 41507, 41572, and 64001 and the federal Elementary and Secondary Education Act (ESEA) require each school to consolidate all school plans for programs funded through the ConApp and ESEA Program Improvement into the SPSA.

Pursuant to California *Education Code* Section 64001(g), the School Site Council (SSC) must evaluate at least annually the effectiveness of planned activities. In the cycle of continuous improvement of student performance, evaluation of the results of goals will provide data to inform and guide subsequent plans.

Annual evaluation by the SSC and local educational agency (LEA) is a critical part of the continuous cycle of improvement for a school. Furthermore, it is an integral component of the Compensatory Education (CE) Federal Program Monitoring (FPM) review process for Single Plan for Student Achievements (SPSAs). During an FPM review, the SSC and LEA must be able to provide evidence of the evaluation process to determine if the needs of students are being met by the strategies described in the SPSA.

The SPSA annual evaluation may be a summary description of the school's progress toward implementation of the strategies and actions in the SPSA. The report may also include a data analysis of the school's progress towards its student achievement goals based on local, state, or national assessment data.

During the evaluation process, it is important for the SSC and LEA to exercise caution about jumping to conclusions about the effectiveness or non-effectiveness of specific activities and programs without examining the underlying causes. The SSC and LEA should consider all relevant factors when evaluating the plan, such as the degree of implementation, student enrollment changes, and health and safety issues.
