Unit of Inquiry: How the World Works

Central Idea: Interactions are a catalyst for change.

Focus of Inquiry: This week we are exploring the similarities and differences between chemical and physical changes. Students will also begin researching an invention or discovery that they feel has had the biggest impact on our world in the last 100 years.

We are wrapping up our first Ready Math Unit: Whole Number Operations and Applications.

This week, your child can prepare for their Unit Assessment by logging into i-Ready and completing the interactive practice. Students log into i-Ready the same way they log into Google. Message me if you have trouble logging in.
